DTX Digital Cinema Screens

The Era of Performance-Made Affordable

dtx[™]
DIGITAL

Experience the Art of Home Cinema:

At DTX Digital, we believe that great home cinema starts with an uncompromising screen. We've created a line of fixed-frame projector screens that blend precision engineering, high-quality materials, and unbeatable value, bringing cinema-grade visuals into your home.

Why Choose DTX Digital?

- Engineered for stunning image clarity and dynamic colour
- Acoustically transparent options for seamless audio placement
- Fixed-frame construction with premium 90mm velvet-wrapped frames
- Available in 16:9 and 2.39:1 cinematic ratios
- Easy-to-assemble two-piece frame design
- Designed for home cinema enthusiasts, AV integrators & professionals

Choose the Perfect Screen for Your Cinema

VISION SERIES:

“Crisp contrast and color purity for dark cinema rooms.”

Screen Gain Options:

- Vision (1.2 Gain)
- Vision HG (1.8 Gain)
- Vision UHG (4.0 Gain)

Viewing Angle: 175°

Available Ratios: 16:9 and 2.39:1

Frame: 80mm black velvet-wrapped aluminium

Best Use: Dedicated dark home cinema rooms

■ Fun Note: Think of Vision as your screen's "true colours" mode.

Designed for controlled lighting environments, Vision delivers stunning brightness and contrast with options tailored to your projector's capabilities.

PREMIER PRO SERIES

“Hide your speakers. Not your sound.”

Screen Gain Options:

- Premier Pro (1.2 Gain)
- Premier Pro HG (1.8 Gain)

Viewing Angle: 170°

Available Ratios: 16:9 and 2.39:1

Micro-perforation: 4% open rate

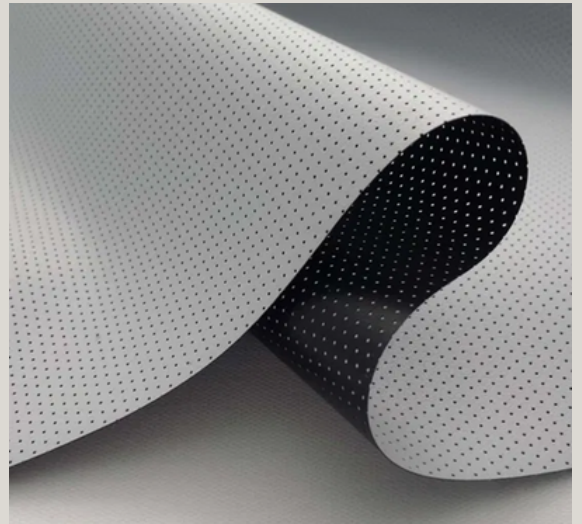

Hole Diameter: 0.4 mm

Sound Attenuation: -3 dB

Frame: 80mm black velvet-wrapped aluminium

Best Use: Integration-friendly cinema rooms

🎧 Fun Note: Your sound guy will love you for this one.

Using micro-perforated material from our Vision series, Premier Pro lets you place your speakers directly behind the screen—no shadows, no muffled sound.

PLATINUM PRO SERIES

“Performance where it counts.”

Screen Gain Options:

- Platinum Pro (1.1 Gain)

Viewing Angle: 175°

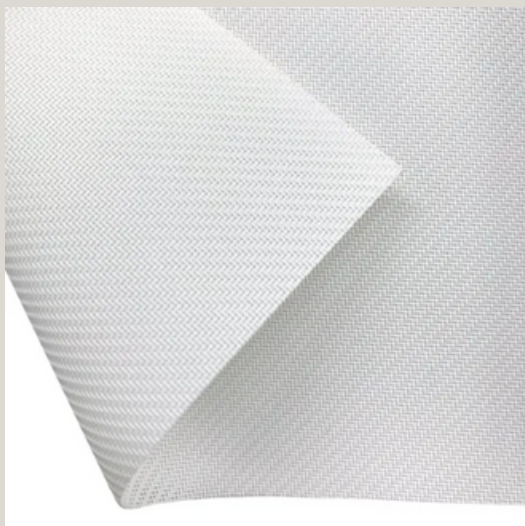

Available Ratios: 16:9 and 2.39:1

Sound Attenuation: -3.5 dB

Frame: 80mm black velvet-wrapped aluminium

Best Use: Mid-to-large cinema rooms needing fine image resolution and clear audio

💎 Pro Tip: Go big without going broke.

The Platinum Pro is an ultra-fine acoustic transparent screen that delivers premium detail and accurate sound reproduction—without the luxury price tag.

SIGNATURE PRO SERIES

“The final word in home cinema screen design.”

Screen Gain Options:

- Signature Pro (1.2 Gain)

Viewing Angle: 170°

Available Ratios: 16:9 and 2.39:1

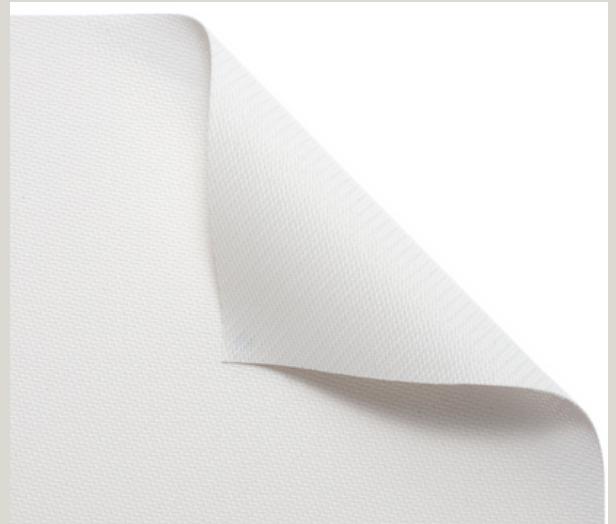

Material: Optically coated fine weave + black acoustic backing

Sound Attenuation: -2.96 dB

Frame: 80mm black velvet-wrapped aluminium

Best Use: Premium installs demanding visual and audio perfection

🎉 Fun Note: It's your home's private IMAX.

No detail is overlooked. Signature Pro combines a multi-layer acoustic weave with a black backing to eliminate light leakage. Serious performance, sleek style.

COMPARISON CHART

<u>Feature</u>	<u>Vision Series</u>	<u>Premier Pro</u>	<u>Platinum Pro</u>	<u>Signature Pro</u>
